

COMPANY PRESENTATION 2025

ABOUT MUSTAD

Founded in 1948, our company has built a strong reputation as a leader in precision mechanical subcontracting, specializing in bar turning and five-axis milling.

With over seven decades of experience, we have become a trusted partner for world-renowned companies in the Defense and Security sector, delivering high-quality, precision-engineered components that meet the most stringent requirements.

Our expertise is backed by a highly skilled workforce and a state-of-the-art machine park equipped with the latest technology. This ensures not only exceptional precision and quality but also the flexibility and efficiency required to meet the evolving demands of our industry in the USA and Europe.

We take pride in our ability to deliver innovative solutions for complex machining challenges, working closely with clients to provide tailored manufacturing processes that exceed expectations.

HOW CAN WE HELP?

We specialize in the production of series ranging from 1.000 to 1 million pieces, catering to the stringent requirements of military applications worldwide.

Our extensive portfolio includes critical components such as flash hiders, firing pins, breech blocks, covers, selector levers, triggers, upper and lower receivers, slides, and frames—all designed to meet the highest standards of precision and reliability. Hence, we produce pieces for mortars, machine guns, assault rifles, grenade launchers, pistols, rockets and so on!

FULL R&D SUPPORT

We provide end-to-end support throughout the entire research and development (R&D) process, serving as a reliable partner from concept development and design optimization to prototyping, testing, and full-scale production. Our experienced engineering team works closely with clients to understand their specific requirements, offering tailored solutions that prioritize precision, functionality, and performance.

TECHNOLOGIES

- AUTOMATIC TURNING
- MILLING
- GRINDING

MACHINING

- LASER ENGRAVING
- ASSEMBLY LINES
- PRESS WORK
